

I am very upset by corporations like Sinclair using the airwaves, shortly before the election to run a partisan hit piece against John Kerry and call it news. We own the airwaves. They should serve the public interest and not be used this way right before the election. Any media outlet that ran Fahrenheit 9-11 would be attacked by the right. I am tired of the public airwaves being allowed to broadcast hate speech like Rush Limbaugh's with no consequences. We need to bring back a degree of fairness, balance, and honesty to radio and TV broadcasting.
